## Let's Go!

In a roomy, smooth-running automobile, roaming through a fairy-land of foaming geysers, boiling springs, fossil forests, waterfalls, and fantastic rock formations—resting at night in comfortable resort-hotels—each day discovering new miracles in Yellowstone's eternal pageant-play—that's a vacation that you can take in only one place on earth.

Here is the home of playful bears and buffalo herds. Over thirty-thousand elk roam the heights above the timberline; mountain sheep inhabit the northern ranges; more than a thousand moose frequent the southern boundary; antelope haunt the rivers, and mule deer are found everywhere. Foxes, otters, badgers, wolverines—unfrightened wild life of a hundred species, large and small—all are performers in Yellowstone's fifty-ring circus.

Two hundred varieties of birds find a home here—from eagles to larks and wrens, and the teeming lakes and streams make the Park a fisherman's Paradise. Travel fast, or take long stopovers—the Yellowstone Park Transportation Company will show you all the acts on the bill, from overture to final curtain.

Grand Canyon and Great Falls of the Yellowstone

## Horseback Tours—Boat Rides—Recreations

In addition to the regular automobile trips there are many picturesque motor rides from which the tourist may make selection at pleasure. He can join a horseback party, go with a camping expedition, or follow the trails alone. Dancing, bathing and other recreations are popular, and motor and row boats are provided for lake excursions.

## Union Pacific Fares Reduced for 1922

Round-trip fares to Yellowstone via Union Pacific will be far lower in 1922 than formerly, war tax is abolished, and side trips to scenic Colorado and Salt Lake City are included without additional cost. The next page shows what a superb tour can be purchased at the moderate price of a Yellowstone ticket alone.

## Side Trips—The Rockies and Salt Lake City

A round-trip ticket to Yellowstone National Park over Union Pacific lines entitles you to side-trips to Denver and Salt Lake City without additional cost for transportation. At each point you are allowed a stopover within the final limit of the ticket (October 31).

From Denver you can visit Rocky Mountain National Park, Denver Mountain Parks and the Pikes Peak district, and obtain an intimate knowledge of the most spectacular part of America's greatest mountain range. At Salt Lake City you can visit the famous Mormon Tabernacle, hear the splendid organ, and bathe in the mysterious "Dead Sea," in which even non-swimmers cannot sink.

## Economical Tours by Arrangement

**REGULAR PARK TOURS**—If you avail yourself of one of the "Four and One-half Day Tours" through Yellowstone Park you can pay a single charge which includes motor transportation and meals and lodging at hotels. On these tours you can at any time spend longer periods at the various stopover points, paying additional fixed charges at hotels and camps. Fees for guides, horse-hire, and all prices for transportation and lodging are regulated by the Federal Government.

**PERSONALLY CONDUCTED TOURS**—By taking one of our personally conducted "all-expense" tours through the Park it is possible to entrust all vexatious details of travel to the representative of our Bureau of Service who escorts the party. The tour gives you 500 miles of motor travel, including special sightseeing trips to Denver and Salt Lake City. Ask for specific details.

## The Union Pacific Route

The Union Pacific route to the Park runs through a region of great historic interest, culminating in the supremely picturesque Snake River Valley. To obtain full information about the entire tour, detach the post card below, fill in your name and address and mail it today.
